KEY
Supervision:
Direct- the supervising physician is physically present with the resident and patient. A faculty physician, other than another resident, is physically present during the key portions of the procedure or is immediately available.
Indirect- the supervising physician is physically within the hospital or other site of patient care and is immediately available to provide direct supervision.
Oversight- the supervising physician is available to provide review of procedures/encounters with feedback after care is provided.
Core Competencies:
1. Patient Care (PC)
2. Medical Knowledge (MK)
3. Practice-Based Learning & Improvement (PBL)
4. Systems-Based Practice (SBP)
5. Interpersonal & Communication Skills (IC)
6. Professionalism (P)
