governing the program or unsatisfactory performance based on one or more evaluations may adversely affect the Resident's standing in the program.

Promotion, Renewal of Appointment

Satisfactory completion of each year of training, as attested to by the Program Director, a Resident in good standing may be promoted to the next level of training subject to the terms, limitations and conditions described in this document and the Residency Agreement. Promotion to the next level of training is determined by the program and the sponsoring institution. The decision to offer renewal of appointment is dependent on several factors, which include, but are not limited to:

- Resident must meet the academic standards and curricular requirements of the program to be reappointed and promoted
- Satisfactory completion of all training requirements for specified level of training
- Documented competence commensurate with level of training
- No later than 24-months following the effective date of an Internship Registration/Graduate Education Training Permit (GETP), the Resident must have taken and successfully passed STEP 3 of United States Medical Licensing Examination (USMLE)
- Full compliance with all terms of the Residency Agreement
- Continuation of the sponsoring institution and ACGME accreditation for program

Whenever performance with respect to any element of a Resident's conduct, skills, duties, and/or responsibilities is determined to be less than satisfactory, the Program Director shall meet and discuss the unsuitable performance with the Resident.
