

OCHSNER CLINIC FOUNDATION
STATEMENT OF INSTITUTIONAL COMMITMENT TO
GRADUATE MEDICAL EDUCATION

Graduate Medical Education at Ochsner continues to fulfill the mission of its Founders to Serve, Heal, Lead, Education, and Innovate.

The Graduate Medical Education Programs at Ochsner will assure the continued legacy of the founders by educating the physicians of tomorrow. Ochsner will provide medical education confirming the provision of safe and effective care with awareness of and sensitivity to each individual's needs; assure that each resident/fellow develops the skills, knowledge, and attitudes required to enter the unsupervised practice of medicine; and establish a foundation for continued professional growth. Ochsner Graduate Medical Education will aggressively recruit locally, regionally, nationally and internationally trainee and faculty candidates with diverse backgrounds, seeking those who will engage with their peers and the interprofessional team to continually improve their knowledge and skills and proactively seek to improve the quality of clinical care delivered at Ochsner. Graduate Medical Education at Ochsner will have a positive and lasting impact on the health of the community, the clinical outcomes of the patients treated at Ochsner and the physician leaders of tomorrow.

In support of its education programs, Ochsner Clinic Foundation will provide financial support for administrative, educational, and clinical resources, including personnel necessary to develop and sustain a robust clinical learning environment. The organization will ensure that all of its graduate medical education programs meet or exceed all Institutional, Common and Special Requirements promulgated by the Accreditation Council for the Graduate Medical Education and its individual Residency Review Committees.
