MISSION
We Serve, Heal, Lead, Educate, and Innovate.

VISION
Inspiring Healthier Lives and Stronger Communities
INTRODUCTION

With the Patient Protection and Affordable Care Act (PPACA) enactment on March 23, 2010, tax-exempt hospitals require community health needs assessments (CHNA) and implementation strategies, which are approaches and plans to improve the health of communities served by health systems actively. Through coordination and community development, initiatives based on the outcomes of the community health needs assessment, Chabert Medical Center is implementing strategies to address identified health needs and impact the health of their community. These strategies provide hospitals and health systems with the information they need to deliver community benefits that can be targeted to address the specific needs of their communities.

Figure 1: Process Chart
**WHO ARE WE?**

Southern Regional Medical Center DBA Leonard J. Chabert Medical Center (LJCMC/CMC) is owned by Hospital Service District No. 1 of Terrebonne Parish, a political subdivision of the State of Louisiana, and managed by Ochsner Health System. LJCMC is a 156-bed licensed acute care facility accredited by the Joint Commission, providing primary and secondary care levels. Inpatient and outpatient services include radiology, laboratory, emergency medicine, physical rehabilitation, pediatrics, oncology, pulmonary/critical care medicine, cardiology, urology, orthopedics, surgery, and psychiatric care. The LJCMC’s physician group, South Louisiana Medical Associates (SLMA), comprises multiple specialties providing clinic and hospital services.

Since 1978 Leonard J. Chabert Medical Center has been caring for the underserved in the region. In addition to this mission, the hospital was established as a graduate medical teaching facility to provide clinical training for physicians, nurses, and allied health personnel.

In May 2013, a public-private partnership between Ochsner Health and Terrebonne General Medical Center (TGMC) was initiated. Ochsner and TGMC collaborated to develop sustainable solutions to deliver crucial regional safety-net services and preserve academic training at LJCMC.

Leonard J. Chabert Medical Center continues its long tradition as a safety-net provider for the underserved in the region while achieving unprecedented access, service, and quality of care for its patients.
**2022 COMMUNITY HEALTH REGIONAL PRIORITIES**

Healthcare organizations and systems strive to improve the health of their community through collaboration with local, State, and national partners. The CHNA and implementation strategy plan meets the Patient Protection and Affordable Care Act requirements. The act has changed how individuals obtain care, promoting reduced healthcare costs, greater care coordination, and better care and services.

Tripp Umbach worked with Chabert Medical Center staff to complete the CHNA, which the board of directors adopted in March 2023. This implementation strategy plan outlines the needs identified in the CHNA and documents how Chabert Medical Center will be addressing the needs over the next three years. Chabert Medical Center will address all needs identified in the CHNA.

The requirements imposed by the IRS for tax-exempt hospitals and health systems must include the following:

- Conduct a CHNA every three years.
- Adopt an implementation strategy to meet the community health needs identified through the assessment.
- Report how it addresses the needs identified in the CHNA and describe the needs that are not being addressed, with the reasons why.

**Figure 2: Final 2023 Key Community Health Needs**

- **CHRONIC DISEASES**
  - Diabetes
  - High BP Hypertension
  - Heart Disease
  - Obesity Overweight*
  - Cancer

- **HEALTH PROMOTION & EDUCATION**
  - Healthy Foods
  - Physical Inactivity Exercise
  - Tobacco Use

- **ACCESS TO CARE**
  - Increase in Providers
  - Increase Use of Telemedicine

- **BEHAVIORAL HEALTH**

*Note: *Includes Adult and Childhood Obesity/Overweight
A) **CHRONIC DISEASES**

**Overall Goal:** Improve access to provider-based and supportive services for increased utilization of health care services by residents.

**Anticipated Impact:** Increase access to health care services for residents served by Chabert Medical Center.

</tr>
</tbody>
</table>

Note: *Includes adult and childhood overweight/obesity.

In 2020, stroke was not an identified CHNA need; however, CMC addressed stroke as a community health issue. In 2023, CMC will no longer track and evaluate stroke-related strategies.
## B) HEALTH PROMOTION & EDUCATION

**Overall Goal:** Improve access to information in the community to reduce poor health outcomes and behaviors.

**Anticipated Impact:** Increase health education and information to residents within the region.

| Tobacco Use| What is the strategy? Ensure residents have access to the Cessation Clinic for Adults. | Community-wide        | Chabert will continue to offer Tobacco Cessation Clinics. The Tobacco Cessation Clinic Program will provide care to residents in accordance with best practices established in the Clinical Care guidelines for treating Tobacco Dependence. | Clinic visit reports  
Number of health fairs attended  
Number of special events attended  
Number of smokers signed up for treatment options  
Number of Free Smoking Cessation Clinics Open | Hospital Providers, Community Outreach, SLMA, and Ochsner Health                                                                          |
|            |                                                                                      |                       | The Ochsner Tobacco Control Coordinator will support the Tobacco Cessation Clinic Program by attending health fairs, special events, and sign-up events to refer people to the clinic creating sustainability. | Number of people interested/registered  
Number of attending                                                                                                                   | Hospital Providers, Community Outreach, SLMA, and Ochsner Health                                                                          |
|            |                                                                                      |                       | Ochsner will facilitate the Smoking Cessation Treatment program through the State’s 1-800-QUIT-NOW and the “Trust.”          | Number of people interested/signed up  
Number of people attending the program                                                                                                  | Hospital Providers, Community Outreach, SLMA, and Ochsner Health                                                                          |

Note: Tobacco Use is no longer a separate CHNA need; it will be addressed under Health Promotion & Education. The overall goal and anticipated impact from the 2020 ISP will no longer apply in this year’s ISP cycle.
C) ACCESS TO CARE

**Overall Goal:** Improve awareness and access to medical services for our community residents.

**Anticipated Impact:** Increase access to care and services across our service areas.

MOVING FORWARD

The CHNA Implementation Strategy Planning Report identifies how Chabert Medical Center will leverage its strengths, resources, and community outreach programs with community organizations to address the community health needs identified in the 2022 CHNA. The CHNA Implementation Strategy Planning Report builds on the input from diverse community leaders, providers, and individuals. It delineates measurable goals, strategies, and metrics to impact community residents’ overall health and well-being.

The implementation phase provides a platform for continuing solid relationships with community and national partners and developing new community relationships that will strengthen the ability to address health needs. Throughout the implementation phase, Chabert Medical Center will continue to track the achievement, evaluate its success, and communicate progress to the communities it serves.
CONSULTANTS

Chabert Medical Center contracted with Tripp Umbach, a private healthcare consulting firm with offices throughout the United States, to complete a community health needs assessment (CHNA) and corresponding implementation strategy plan. Tripp Umbach has worked with more than 300 communities in all 50 states. Over one in five Americans live in a community where our firm has worked.

From community needs assessment protocols to fulfilling the new Patient Protection and Affordable Care Act (PPACA) IRS 990 requirements, Tripp Umbach has turned needs assessments into practical action plans with sound implementation strategies, evaluation processes, and funding recommendations for hundreds of communities. Tripp Umbach has conducted over 400 community health needs assessments and worked with more than 800 hospitals.

Changes introduced as a result of the PPACA have placed an increased level of importance on population health and well-being and on collaborative efforts among providers, public health agencies, and community organizations to improve the overall health of communities.
