

Healthy Schools Program

Ochsner's School Nurse Program places a dedicated pediatric school nurse into your school. Having a school nurse on site allows for rapid assessment of your student's medical and emotional health needs. They are also an educational resource to teach about living a healthy lifestyle. Our nurses are always connected real-time to Ochsner's school health team of pediatricians.

Full Time Nurse

- Full time staff member; 40 hours per week on your campus
- Healthy Schools on Demand; Ochsner pediatrician phone support (M-F 7am-5pm)
- Pediatric nurse that is trained to handle medication administration, food allergies, asthma exacerbations and other urgencies
- Hearing and vision screenings for early education students
- CPR training for your staff
- Adolescent Education classes
- Ochsner EatFit Nutrition Roadshow
- Access to substitute nurses when your nurse is absent (with sufficient notice)
- Annual contract
