

Starting an Insulin Pump? Thinking about Insulin Pump Therapy? Here is What to Expect.

Diabetes Specialty
Health Care Provider
for initial medical evaluation.

Meet with a Diabetes Educator for
pump evaluation and
carbohydrate counting
(This may require more than 1 visit).

Followup with an Educator in 1-2
weeks to assess carb counting
and initial pump settings. Pump
start will be scheduled.

Followup with your Diabetes
Specialty Provider in 3, 6, or 8
weeks after insulin pump start.

Followup with your
Diabetes Educator 1-2 weeks
after pump start.

See Diabetes Educator for
insulin pump start.

Because you are on an insulin
pump, you will be required to see
Diabetes Education yearly for
insulin pump evaluation.

Routine DM care. Followup
with your Diabetes Specialty
Provider as recommended.
