At that time, with the introduction of new medications to treat mental illness, chronically mentally ill persons were returning to their communities from the hospitals. Then, as is the case now, the Adult Day Treatment Program helps this transition back into the community. In addition, by their participation in the Adult Day Treatment Program, persons may be helped to stay out of mental institutions by preventative treatment. This program is available to persons with severe and persistent mental illnesses who are at least 18 years of age. The basis of this treatment is that the person takes responsibility for their own recovery. The program meets three days a week. Treatment is provided in groups which focus on communication skills, education Provides home healthcare.	ACC (PRI	Limi	Lim	COS	X X	Tran	Lim	ACC	Неа	Sup	star	ACC SER	Lim	COII	dud
