

AFTER YOUR VIST:

IMAGING

- Imaging results will be released to you via the Ochsner portal.
- If you are not signed up for the portal, we can help you to sign up.
- Unexpected abnormal results will be communicated to you via telephone. However, detailed explanation of imaging will be reviewed at your next follow up and/or prior to a procedure.
- If you have questions regarding your imaging, please schedule a follow up appointment.

MEDICATIONS

- Please allow 4-6 weeks to see full benefit from medications prescribed.
- Please give 3-5 days notice for refills.
- Any medication changes will require a follow up visit.

PROCEDURES

- Procedures without steroid should provide immediate short-term relief. Please contact us with your pain diary results.
- Procedures with steroid may take up to two weeks to see benefit.
- Radiofrequency Ablation may take 4-6 weeks to see full benefit.
- You will be contacted by the procedure area 48 hours prior to your procedure with final arrival time and further instructions.
- More information on procedures is available at our website:
