

How Much Will I Pay?

Obtaining a Pre-Care Billing Estimate

As part of Ochsner Health's continued commitment to improving our price transparency and empowering patients through better access to price information, we are now offering the following options to receive a billing estimate prior to your appointment.

Self-service on MyOchsner or ochsner.org

Create a personalized estimate through MyOchsner or on ochsner.org.

- Current Ochsner patients with a MyOchsner account can log in and search for "Estimates" under "Billing." Any service eligible for estimates will be listed on this page. Visit my.ochsner.org
- If you are new to Ochsner, you can create a guest estimate for certain services by entering your benefit information. Visit ochsner.org/billingestimates

Provided by Ochsner

For most scheduled services, we proactively provide a pre-service estimate before you arrive for care. We aim to deliver each estimate in advance of your scheduled care, via phone and MyOchsner.

Call the Central Pricing Office

You can call us directly at **504-703-2773** or **855-241-9351** if you have any questions about billing estimates.

Please note, all billing estimates are based on information provided by patients and do not include, among other things, any unforeseen complications, additional tests or procedures and non-hospital related charges, any of which may increase the ultimate cost of the services provided. A final bill for services rendered at Ochsner Health may differ from the information provided through these resources, and Ochsner Health shall not be liable for any differences.
