

AHA Community Training Center

The **Ochsner Health System Community Training Center** is pleased to announce that we are now operating with Enrollware, a Web-Based American Heart Association course registration and management system. This program has not only supported the opportunity to establish a more streamlined process of AHA certification tracking and issuing of completion cards and eCards, but it has also awarded the added benefit of conserving the usage of daily supplies and turnaround time of course processing upon completion.

Enrollware is accessible by desktop, laptop, or any mobile device with Internet Access. Course purchases and registrations are only a click away and instructors can have effortless access to their classes in the palm of their hands.

Here's what our customers are saying about Enrollware:

***"I'm liking it.** It's much easier and more convenient to keep track of not only classes but students. Plus I'm getting cards to them often the same day or the next day. Win-win all around."*

***"I'm loving it!!!!"** It helps with my record keeping, very easy to use, fast turnaround. I am very appreciative of the option to purchase cards."*

***"I really like it.** It's much more convenient for me as I live in Mississippi and send all rosters by mail. The USPS has lost several of my rosters so this is much more efficient for me and it's instant. My vote is yes on it."*

***"I find it easily accessible.** I can pull it up on my phone and/or laptop at any time. Instead of the hassle of mailing out the roster and check, the new program makes the process a lot easier/faster. Overall, I am looking forward to continuing using Enrollware."*

***"Personally, I love it!"** Not only does it save paper, but it saves personnel the time from having to copy and file by hand all of this material. We have not had any issues with it so far; it's been a great resource."*

***"I love it.** I don't have to copy all of the roster, certificate, etc. just scan everything over. Also I don't have to stand there and monitor the roster to ensure they are putting in the correct time. I have them log in in real time. I LOVE IT."*

***"Overall, it's a great program.** Very easy to use."*

***"Always a plus** to cut down on the paper work and snail mail."*

***"I like it,** so much easier than the manual form process!"*

"LOVE ENROLLWARE! THIS WILL MAKE MY WORKLIFE SO MUCH EASIER!"
